Construction and Demolition Waste Management Plan (WMP)

Return this application before your project begins.

Permit # Application Date Project Sq. Ft.

Project Name Project Type: Construction Swimming Pool
 Roofing Plumbing A/C or Heating
 Electrical Demolition Solar Installation
 Other _____ Sign Installation

Job Site Address

City State Zip Code

Applicant Name Applicant Role: Owner Contractor

Applicant Address Phone Fax

City State Zip Code E-Mail

1. How do you plan to dispose of the debris that you will generate with your project?

- I will hire the city permitted hauler Bertolottie Disposal, Inc. (209)537-8000
- I will self-haul debris to _____ (See Resource List for Locations)

2. What materials will be generated by your project?

- Asphalt Bricks/Rocks Cardboard Concrete/Cement Dirt/Clean Fill
- Drywall/sheetrock Glass/Windows Lumber/Wood Metals Mixed Construction Materials
- Roofing Materials Composite Salvaged items (fixtures, furniture) Other _____

3. As the owner of, or agent for this permit application, I understand that by signing this form, the permit applicant is responsible for the debris generated under this project, and will comply with the city's recycling and reporting requirements, even if the work is performed by a subcontractor or third party. **Failure to comply may result in fines and/or citations.**

CITY OF PATTERSON

PUBLIC WORKS DEPARTMENT

1 Plaza Circle • Patterson, California 95363 • Office 209.895.8060 • Fax 209.895.8069

Construction and Demolition (C&D) Waste Management Plan Program Requirements

[Patterson Municipal Code 6.14 Title 6](#) requires everyone seeking a new building or demolition permit to identify all debris materials at the time of the permit application. In compliance with state regulations, a mandated percentage of the debris must be recycled or reused. The diversion of the materials must be reported and documented by receipts that signify amount disposed of and the form of disposal.

Please refer to **the Construction and Demolition Debris Resource List** for listing of hauler(s) that's permitted to transport debris from job sites, and for drop-off facilities that recycle self-hauled materials.

CHECK LIST

- Complete, sign, and submit **CONSTRUCTION AND DEMOLITION WASTE MANAGEMENT PLAN (WMP)** prior to commencing project. **[FORM A]**
- If you plan to self-haul your waste, use the attached **CONSTRUCTION AND DEMOLITION DEBRIS RESOURCE LIST** to find facilities that will recycle your materials, or hire the City's permitted collectors for recycling service. **Always ask the recycling facility or collector for all your weight tickets and receipts. [Document 1]**
- Use the conversion sheet provided to calculate tonnage. **[Document 2]**
- Once your project is complete, you must submit the attached **CONSTRUCTION AND DEMOLITION DEBRIS RECYCLING REPORT [FORM B]** within **14 days** of project completion. Final Report should include:
 - Types and quantities (tons) of materials recycled, reused, or salvaged
 - Types and quantities (tons) of materials disposed at the landfills
 - Final destination of materials or hauler with **ALL weight, tags, and receipts**
 - Method of transport of your debris materials (self-haul, container, or debris box)
- Mail, fax or email the completed report, together with all receipts and weight tickets to

City of Patterson – Public Works Department
Solid Waste & Recycling Division
1 Plaza Circle
Patterson, CA 95363

E-mail: solidwaste@pattersonca.gov

Determine the Weight of Your Debris **[Document 2]**

(Estimates should be provided in Tons)

How to Convert Pounds into Tons:

To convert pounds to tons, divide the number of pounds by 2000

Pounds to Tons = (# of lbs) / (2000)	
Example:	3350 lbs = (3350) / (2000) = 1.675 Tons

How to Convert Cubic Yards into Tons

Select the type of material recycled/reused from the chart on the right

Multiply the corresponding number by the total number of cubic yards recycled/reused.

Material Type	Tons per Cubic Yard
Asphalt	0.69
Brick	1.51
Cardboard	0.05
Concrete	0.93
Dirt/Clean Fill	1
Drywall/Sheetrock	0.2
Lumber	0.17
Plastic	0.17
Roofing materials	0.21
Metals	0.45
Mixed Materials	0.25
Green Waste	0.05

Cubic Yard to Tons = (Tons per Cubic Yard) X (Total # of Tons)	
Example	5 Cubic Yards of Asphalt = $(0.69) \times (5) = 3.5$ Tons of Asphalt

How to Calculate the Diversion Rate

To determine the percentage of material recycled/reused, divide the number of tons which were recycled/reused by the TOTAL tonnage generated by this job.

DIVERSION RATE = $\frac{\text{recycled tons} + \text{reused tons}}{\text{recycled tons} + \text{reused tons} + \text{disposed tons}} \times 100 = \% \text{ Recycled and Reused}$	
Example	Recycled Tons = 4 Reused Tons = 6 Disposed Tons = 3 $= \frac{(4) + (6)}{4 + 6 + 3} \times 100 = 77\% \text{ Recycled and Reused}$

Demolition – Deconstruction [Document 1]

Deconstruction

Deconstruction is a cost saving alternative to traditional complete demolition by recycling, reusing or donating materials for tax write offs, instead of disposing them in landfills. The advantages of deconstruction may include tax deductions for material donations, cost-savings by reusing materials, preservation of vintage architecture, and avoidance of city fines and permit delays.

Salvaged items in working condition, such as double-pane windows, lighting fixtures, sinks, cabinets, ceiling fans, doors, etc., can be dropped off at:

1. Habitat for Humanity Restore
4933 West Lane
Stockton, CA 95210
(209) 465-5054
e-mail: mhuber@sjchabitat.org
<http://www.sjchabitat.org/>
2. The Reuse People
9235 San Leandro Street
Oakland, CA 94603
(510) 383-1983
(888) 588-9490
<http://www.thereusepeople.org>

The following company will deconstruct buildings and structures of larger projects, and then recycle, reuse and salvage almost all of the building materials:

Marcan Enterprises
P.O. Box 304,
Moss Beach, CA
94038
(650) 580-2922

House Moving

Moving a house or structure to a separate location is another alternative to demolition. Contact the following house and structure movers in our area:

Fisher Bros. House Movers
2801 E. Lovelace Road, Stockton 95202
(209) 982-0283

Lozano & Delgado, Inc.
2398 Pheasant Run Circle, Stockton 95207
(209) 983-0212

Montgomery Contractors, Inc.
3611 51st Avenue, Sacramento 95823
(916) 395-2417

W.C. Maloney, Inc.
4020 Newton Road, Stockton 95213
(209) 942-1129

House Donation

Donating a house structure can yield tax benefits. The following organizations are interested:

ACLC, Inc.
315 N. San Joaquin Street, Stockton, CA 95202
(209) 466-6811

SJ Habitat for Humanity
4933 West Lane, Stockton, CA 95210
(209) 465-5054

ALWAYS ASK FOR A RECEIPT AND WEIGHT TICKET WHEN DROPPING OFF ITEMS

Bertolotti Disposal, Inc	231 Flamingo Drive	Modesto	209-537-8000	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X

Note: Permit applicants using any of the above facilities for their project will be considered in compliance with the City's recycling requirements. Only permitted waste haulers are allowed to collect and remove construction debris directly from a job site and transport debris to a recycling facility. You may choose to self-haul waste generated from your project to any drop off recycling facility (see reverse for locations).

After job completion, e-mail your C&D Recycling Report with all receipts and weight tickets to: solidwaste@pattersonca.gov or by mail to City of Patterson - Public Works, - Attention: Solid Waste Manager 1 Plaza Circle, Patterson, CA 95363

Waste Management Compliance Guide

Project Type	Requirement	Refer to
<p>RESIDENTIAL [HCD]: If your project is an existing residential project and an addition or alteration that increases the building's conditioned area, volume, or size:</p>	<p>Recycle and/or salvage for reuse a minimum of 65% of the nonhazardous construction and demolition waste by developing and following a waste management plan (WMP) that is to be approved by the city <i>prior</i> to the commencement of construction and submitted at the end of the project with receipts from the disposal site(s).</p>	<p>2016 California Green Building Standards Code Sections: 301, 301.1, 301.1.1, 301.2, 302, 303, 304, 4.408.2, 4.408.3, or 4.408.4</p>
<p>NON-RESIDENTIAL [BSC-CG]: If your project is a newly constructed non-residential building, building addition of 1,000 square feet or greater, and/or building alterations with a permit valuation of \$200,000 or above:</p>	<p>Recycle and/or salvage for reuse a minimum of 65% of the nonhazardous construction and demolition waste by developing and following a waste management plan (WMP) that is to be approved by the city <i>prior</i> to the commencement of construction and submitted at the end of the project with receipts from the disposal site(s).</p>	<p>2016 California Green Building Standards Code Sections: 301, 301.3, 301.3.1, 301.3.2, 302, 303, 303.1, 304, 5.408, 5.408.1, 5.408.1.1, 5.408.1.2, 5.408.1.3, 5.408.1.4, 5.408.2, 5.408.3,</p>
	<p>Verify and include in WMP that Universal Waste items such as fluorescent lamps and ballast and mercury containing thermostats as well as other California prohibited Universal Waste materials are disposed of properly and are diverted from landfills.</p>	
	<p>If your project primarily deals with land clearing: Report to the city that 100% of trees, stumps, rocks, and associated vegetation and soils shall be reused or recycled. There are <i>exceptions</i> for vegetation and soil that is contaminated by disease or pest infestation.</p>	

C&D Waste Management Plan (WMP) Report **[FORM B]**

Complete and submit this form within 14 days of project completion, including canceled projects.

You must provide receipts and/or weight tags to verify your information
